

# instiller

## One smart move made simple

Changing from your current email marketing service provider can sometimes feel like more hassle than it's worth.

But switching providers doesn't have to mean danger and disturbance. And the benefits of making that one smart move are significant.

Here's how Instiller simplifies the switching process.

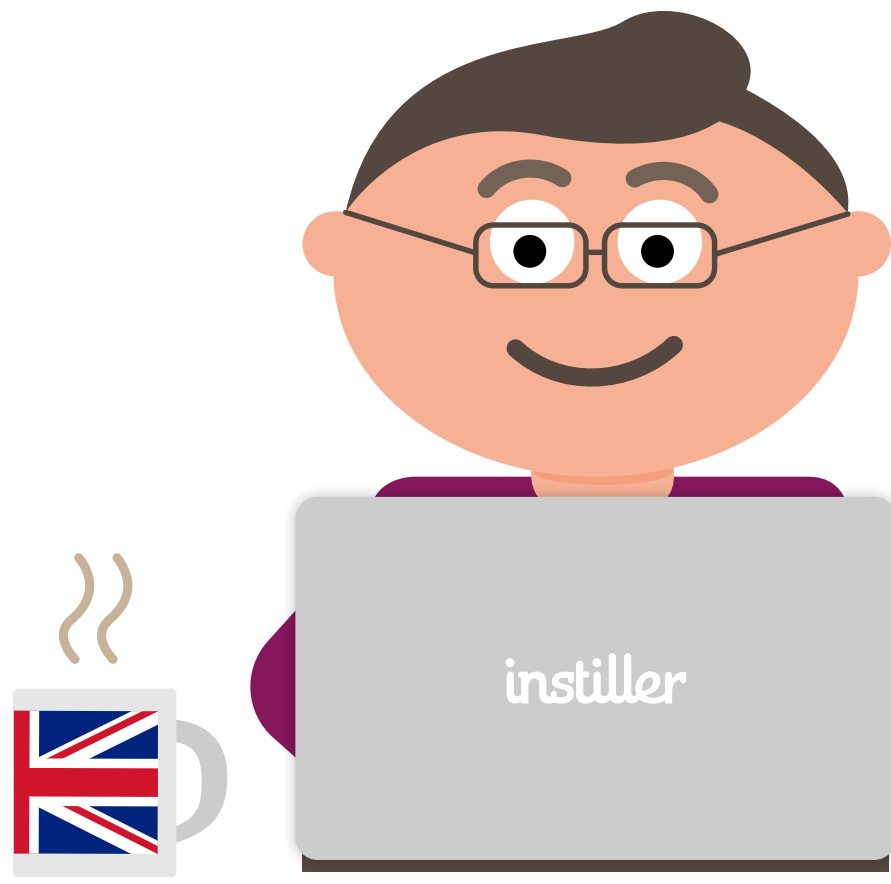

### Make the switch in just 48 hours

We'll get Instiller up and running within two days. We've built the system to be as 'plug and play' as possible. (Or how most clients like to see it - 'plug and make money').

### Expert technical support

Our team of UK-based experts will work with your team to ensure a seamless transition. There are no questions that can't be answered as you'll be speaking with the team who developed it.

### User onboarding

Although the system is intuitive we do offer training - so once the system is up and running - you can be too.

## Bespoke delivery

If you have bespoke requirements, we make sure everything is considered prior to the switch, so as not to cause any delays.

## Why switch?

### Agency-specific

Instiller is the only email provider designed specifically for agencies. You won't find us going direct to your clients.

### 100% white label

You can set the branding of Instiller to match your agency, so clients never need know that we exist.

### No commission

We don't take any commission from your profit - one cost, one smart move.

### Unlimited everything

Unlimited users, unlimited clients, unlimited data storage and unlimited support.

### Zero downtime

Instiller has a 99.9% uptime, so you'll never have to worry about failing to deliver your service to clients.

## How does that sound?

Get in touch to find out more about how easy it is to make the switch to Instiller.
